MOBILE GAS SUPPORT SYSTEMS

Mobile N_2O Support System

PRODUCT CODE
N20MSS

SPECIFICATION

- For Nitrous Oxide (N_2O)
- Twin "E" size cylinder cradles
- Star trolley base for stability
- Manual twin cylinder change-over system
- BS gas-indexed self-sealing valve
- 2 × pre-set N_2O regulators, pin index fitting

WEIGHTS AND DIMENSIONS

Height	**940 mm**
Width	**600 mm**
Depth	**600 mm**
Weight	**10 kg (approx)**

ACCESSORIES — N20MSS

OX010 Pin-Index "BODOK" Seal (each)

PC30 Pin-Index O' Ring Sabre Type (each)

OVERVIEW

Oxylitre's Mobile N_2O Support System is a self-contained, mobile nitrous oxide supply for use where a piped gas supply is not available. It is built around twin "E" size cylinder cradles on a star trolley base for stability, with a manual twin cylinder change-over system so an empty cylinder can be switched to the reserve without interrupting the supply.

Gas is delivered through a BS gas-indexed self-sealing valve and two pre-set, pin-index N_2O regulators. For full warranty terms please see our terms & conditions.
